Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-49, 53-87, 90-154, 162-183 drawn to an exercise apparatus, classified in class 601, subclass 23.
- II. Claims 52, 156-161, drawn to a method of exercising, classified in class 434, subclass 247.
- III. Claim 155, drawn to a treadmill, classified in class 482, subclass 54.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, III and II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Rex Donnelly on 9/3/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn Richman whose telephone number is 571-272-4981. The examiner can normally be reached on Mon-Thurs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Greg Huson can be reached on 571-272-4887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
